

A photograph of an office interior, showing desks, chairs, and a window with a view of a city. The image is overlaid with a semi-transparent red filter.

Corporate and Business Law

Mansour Gavin's Corporate and Business Law Group offers comprehensive legal counsel to a diverse range of businesses, spanning from start-up ventures to multi-national corporations. Our team of attorneys brings extensive business, management, and technical proficiency to every client relationship, enabling us to provide practical legal advice for navigating complex business transactions.

We have a proven track record representing clients in a wide array of transactions, including entity formation and governance, mergers and acquisitions, commercial lending transactions, licensing and commercial transactions, buy-sell agreements, stock splits, and venture capital investments. Our services also include drafting, reviewing, and negotiating various agreements and licenses, maintaining corporate records, and advising on privacy policies, social media, cybersecurity, and data protection.

Our legal team guides clients through the complexities of international trade and export regulations, working with authorities such as United States Customs, the United States Treasury Department Office of Foreign Assets Controls, European Union Customs, and the United States Department of Commerce Bureau of Industry and Security. We assist clients in preparing and filing classification requests and licenses and offer advisory services for proposed export transactions. Furthermore, we leverage the diverse capabilities within our firm by collaborating with attorneys from our estate planning, environmental, real estate, and intellectual property groups whenever their knowledge is pertinent to a specific legal issue.
