

Corporate and Business Law

Mansour Gavin's Corporate Law and Business Services Group provides legal counsel for a wide variety of businesses including entrepreneurs, start-up ventures, small to medium sized businesses, multi-national corporations and private equity funds. Our attorneys bring a wealth of business, management, technical knowledge and other experience and value to the relationship. This enables us to provide sound and practical legal advice to guide our clients through challenging, complex transactions, and the intricate environment in which they do business.

We have represented clients in a broad spectrum of complex business transactions, including entity formation and governance, mergers and acquisitions, commercial lending transactions, licensing and commercial transactions, buy-sell agreements, stock splits and venture capital investments. Services also include drafting, review, and negotiation of all types of agreements and licenses, corporate record book maintenance, and advising on issues concerning privacy policies, social media, cyber security and data protection.

Our attorneys help clients navigate international trade and export regulations with numerous entities, including United States Customs, the United States Treasury Department Office of Foreign Assets Controls, European Union Customs, and the United States Department of Commerce Bureau of Industry and Security. We also assist clients in preparing and filing classification requests and licenses, and offer counsel for proposed export transactions.
