

Estate Planning and Probate

Mansour Gavin's Estate Planning and Probate Group offers comprehensive services tailored to clients at every stage of life. Our goal is to safeguard private capital through effective and thorough estate planning, guardianship administration, estate and trust administration, and resolution of estate and trust disputes.

Our team of attorneys assist clients in designing, drafting, and implementing sophisticated estate plans, providing legal advice to fiduciaries in fulfilling their obligations, advising beneficiaries of their entitlements, and delivering complete estate settlement services. We prioritize integrating tax benefits into estate plans while ensuring the utmost flexibility for our clients.

Our services include estate planning, probate proceedings, guardianship administration, probate litigation, trust and estate dispute litigation, establishment of private foundations and non-profit entities, charitable planning involving various charitable trusts, business succession planning, and wealth preservation strategies. In all these matters, we work closely with clients to devise sound, practical, and innovative solutions.

In conjunction with our other practice areas, we leverage our firm's full-service capabilities by utilizing attorneys from our business and corporate services, labor and employment, and intellectual property groups when those services are pertinent to a particular legal matter.
